

Shivaranjani K

Java Developer / Software Engineer

(+91) 97881-55383 | Madurai, Tamil Nadu | shivaranjanik1905@gmail.com

GitHub | LinkedIn | Portfolio

Aspiring Software Engineer with a strong foundation in **Object-Oriented Programming, Data Structures & Algorithms**, and **full-stack development**, driven to design efficient, scalable, and **multi-tier** software solutions.

Education

B.E. Electronics and Communication Engineering, PSNA College Of Engineering & Technology *Sep 2023 – May 2027*

HSC, Sri Aurobindo Mira Matriculation Higher Secondary School

May 2023

Skills

- **Core CS Fundamentals:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Operating Systems, DBMS (Relational Databases), Complexity Analysis
- **Languages:** Java, SQL
- **Web Technology:** HTML5, CSS
- **Database:** MySQL (Relational Database), JDBC
- **Tools:** Git, GitHub, Postman, Apache Maven, VS Code, IntelliJ, Eclipse

Projects

Full Stack E-Commerce Web Application

April 2026 – Present

Technologies: Java, Spring Boot, React.js, MySQL, JWT, REST API, Tailwind CSS, Material UI, Razorpay, Hibernate, JPA

- Designed a **multi-tier architecture** with **React.js** (presentation layer), **Spring Boot REST APIs** (service/business logic layer), and **MySQL** via **Hibernate/JPA** (persistence layer).
- Implemented **JWT-based authentication** with **role-based access control** for Admin and User roles, with product **CRUD** operations.
- Integrated **Razorpay payment gateway** for online payments and **JavaMail API** for automated order confirmation emails.
- Built responsive UI using **Tailwind CSS** and **Material UI** with product search, category filter, cart, and order tracking.

Library Management System

Jan 2026 – March 2026

Technologies: HTML5, CSS, MySQL, Servlet, Java, Apache Tomcat

- Developed a web-based **library management system** to manage books and user transactions efficiently.
- Implemented **admin authentication** for secure access and system control.
- Designed and developed modules for adding, viewing, borrowing, returning, and deleting books.
- Integrated **MySQL database** for efficient storage and retrieval of book and user records; deployed on **Apache Tomcat**.

Internship

Front-End Developer Intern – Prodigy InfoTech (Remote)

June 2025 – July 2025

- Built a **responsive landing page** with modern UI design principles and a **mobile-first approach**, improving accessibility.
- Designed and deployed a personal **portfolio website** to showcase projects, enhancing UI/UX and navigation structure.
- Implemented a **stopwatch web application** with start, pause, and reset functionality using **JavaScript**.
- Developed an interactive **Tic-Tac-Toe game** with dynamic game logic and win detection.
- Created a **weather application** integrating **API** data to display real-time weather updates based on user input.

Activities

- **Problem Solving:** Practicing Core Java, Data Structures, Algorithms, and logical problem-solving on LeetCode and HackerRank.
- **IEEE 7-Hour Hackathon – Participant (2025):** Built a smart agriculture prototype using moisture and temperature sensors for real-time monitoring and data-driven optimization.
- **Smart India Hackathon (SIH) – Participant (2024, 2025):** Selected at college level (2024); proposed a web-based drug monitoring system to track distribution and prevent misuse.

Certifications

- Java – HackerRank
- CSS – HackerRank
- Build Dynamic User Interfaces for Websites – Google (Coursera)
